

who we are

our school:

Since 1990, **NEW TONE MUSIC** has served the Manning & Great Lakes, NSW delivering quality individual and group instrument tuition to both young and old on **guitar, piano, drums, bass & vocal**. Our sole aim is to bring musical experience, equipping and training to the community.

All are welcome to take up lessons with any of our expert tutors or utilize any of our other Taree based facilities including a fully equipped recording studio, an instrument repairs & maintenance workshop and a sales department where we specialize in the supply of quality new music instruments and equipment at greatly discounted prices.

In addition to individual music tuition, we also undertake group tuition onsite at primary schools around the district. Over the years we discovered the best way to introduce music instrument training to children is through group music lessons at school alongside their peers and friends. We also found that rapid musical development ensued throughout the teenage years as a result of those earlier experiences.

For those wishing to pursue their musical aspirations further, we offer a range of Australian Music Examination Board (AMEB) music instrument and music theory courses. These tertiary entrance accredited courses are a great way to propel students through their secondary years on toward their musicianship goals.
